Blue Coat Trade-In Offer

Swap out your legacy PacketShaper and redeem credit up to **$25,000!**

Since you first invested in your PacketShaper a lot has changed. You've likely moved many of your critical applications to the cloud and your network has exploded with mobile devices. Not to mention your vendor has shifted its focus from packet shaping to security. If troubleshooting is taking hours out of your work week and if keeping up with new apps feels like a burden, it's time replace your PacketShaper. Dramatically reduce troubleshooting time and ensure your business critical applications always perform with Exinda Network Orchestrator. To make your transition easy and cost effective take advantage of our Blue Coat Trade-In Offer, running until September 16, 2016.

PS - 12000	$12,000

Hear from our customers why they switched to Exinda

"I used to spend about 8 hours a week managing the WAN, and now I spend 30 minutes. Exinda takes a lot of work off my hands so I now have more time to spend on other critical projects."

Kristof Van Den Ouweland, IT Systems Engineer at IMAS NV
